

You're invited to the 2013 NZGA Seminar

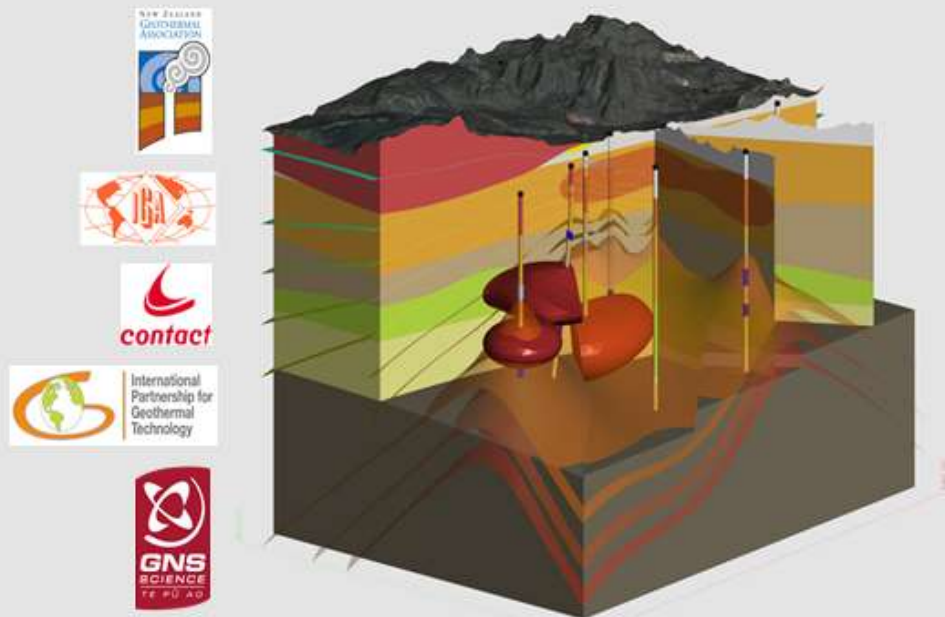

Geothermal Supermodels

Managing and modelling multiple geothermal systems

Come and attend a one day seminar on recent developments in the way models are used to represent geothermal systems, and the future of models and modelling data. Expect lively discussion on multi-system models and integration of geological, geochemical, geophysical, and reservoir models.

Cost: \$250.00 per person
Students: \$100.00 per person

Wednesday 12th June 2013
Bayview Wairakei Resort, Taupo

Additional PyTOUGH Short Course

We will also be holding a short course run by Dr Adrian Croucher, creator of PyTOUGH on the new PYTHON library. The course will consist of 2 days of lectures and computer time using worked examples, and designing your own scripts for processing TOUGH2 files.

Cost: \$100.00 per person

June 13th & 14th 2013
Wairakei, Taupo

To register for the seminar and/or the course, please fill out the attached form and send back to Trudy (t.stuart@gns.cri.nz).

Any questions please contact Trudy Stuart (t.stuart@gns.cri.nz) or Juliet Newson (Juliet.newson@contactenergy.co.nz).
